Forgiveness for PPP Loans
of \$50,000 or Less

In October of 2020, the SBA and Treasury released an Interim Final Rule that makes it significantly easier for businesses with Paycheck Protection Program loans of \$50,000 or less to receive forgiveness. Of the 5.2 million PPP loans approved by the SBA, about 3.57 million, or 68.6%, were for \$50,000 or less. So the changes in the rule will affect most PPP loan recipients.

Businesses with loans of \$50,000 or less can now use the Form 3508S to apply for forgiveness. However, businesses with affiliates that received PPP loans totaling \$2 million or more cannot use this form, even if its own loan is \$50,000 or less. Any businesses that are not eligible to use the simplified Form 3508S must use the SBA Form 3508 or 3508EZ.

SBA Form 3508S (10/20)		

The Paycheck Protection Program stipulates that the forgivable amount of a loan will be reduced if a borrower reduced full-time equivalent employees as compared to a prior base period or if a borrower reduced the salaries or wages for certain employees as compared to the first quarter of 2020. This used to apply to all borrowers. However, with the new Interim Final Rule, borrowers who use the form 3508S are exempt from reductions in loan forgiveness amounts based on cuts in full-time equivalent employees or salaries and wages. So, if you're using the Form 3508S and had reduced employee headcount or employee compensation, you will not be penalized with a reduction in the loan forgiveness amount.

The SBA Form 3508S also requires fewer calculations and less documentation for eligible borrowers. It does not require borrowers to show the calculations used to determine their loan forgiveness amount. However, the SBA may request information and documents to review those calculations as part of its loan review process. Even though you don't have to provide the detail in the application, it's smart to retain those calculations in case you receive a request for review.

To calculate your loan forgiveness amount, you'll first need to calculate the sum of eligible payroll costs paid and payroll costs incurred during the 24-week or 8-week Covered Period or Alternative Payroll Covered Period. Eligible payroll costs include Cash Compensation, Employee Benefits, and Owner Compensation, as defined in the Form 3508S instructions.

Next, you'll need to calculate eligible non-payroll costs. Non-payroll costs eligible for forgiveness consist of:

- (a) Payments of mortgage interest on any business mortgage obligation on real or personal property incurred before February 15, 2020
- (b) Business rent or lease payments pursuant to lease agreements for real or personal property in force before February 15, 2020
- (c) Business payments for electricity, gas, water, telephone, transportation, or internet access for which service began before February 15, 2020

An eligible non-payroll cost must be paid during the Covered Period or incurred during the Covered Period and paid on or before the next regular billing date, even if the billing date is after the Covered Period. Eligible non-payroll costs cannot exceed 40% of the total forgiveness amount.

The “forgiveness amount” you report on the Form 3508S will be the lesser of:

1. The sum of eligible forgivable costs,
2. The principal of the loan, or
3. The payroll costs divided by 60%.

Once you have calculated the “forgiveness amount”, the application becomes much easier than the Form 3508. There is no schedule A, no worksheet for schedule A or calculations for Full-Time Equivalency and Salary and Hourly Wage Reductions. However, you will need to make several representations and still need to provide certain documentation with your application.

Finally, be sure to save all backup documentation and calculations used for the application for six years after the loan is forgiven or repaid in full.
